

Gap Subjects Catalog

The Florida adoption schedule was revised re-aligning subjects to include all of Grades K-12 in the called subject areas. This revision will affect upcoming adoptions for K-5 Mathematics and 6-12 English Language Arts. The result is the current adoption will end one or two years before the new adoption begins, creating a "Gap" during which time there may not be sufficient digital and consumable print instructional materials for every student. Instructional materials are being offered by publishers to bridge the "Gap".

This is a special Gap Year Catalog featuring digital and print instructional materials currently available for the one or two year gap indicated in the table below.
